

What happens if Medicare plans from UnitedHealthcare leave the Medicare Program or leave the Service Area where you live?

If we leave the Medicare program or discontinue Medicare plans from UnitedHealthcare in your Service Area, we will notify you in writing. **If either of these situations occurs, you will be allowed to change the way you receive Medicare coverage.** Your choices will always include Original Medicare, and they may also include joining another Medicare Advantage plan, if such plans are available in your area and are accepting new Members.

We have a contract with CMS. At the end of each year, the contract is reviewed, and either we or CMS may decide to terminate the contract. It is also possible our contract may terminate at some other time. If the contract is going to terminate, we will generally notify you at least ninety (90) days in advance. Your advance notice may be as little as thirty (30) days, or even fewer days if CMS terminates our contract in the middle of the year. Until we notify you in writing that you must disenroll from Medicare plans from UnitedHealthcare and indicate the date when your membership ends, you will continue as a Member of Medicare plans from UnitedHealthcare, and you must continue to receive all covered services from contracted medical providers until the date your disenrollment is effective. All covered services and rules described in this document will continue until your membership ends.

Once we have notified you in writing we are leaving the Medicare program or the area where you live, you may switch to another way of getting your Medicare benefits at any time. If you decide to switch from Medicare plans from UnitedHealthcare to Original Medicare, you will have the right to buy a Medigap policy regardless of your health. This is called “guaranteed issue rights.” Locate your state below to find the local agency to contact about how and when to buy a Medigap policy if you need one.
